## PRODUCT FEATURES

- ▶ Hygienic - reduces mould & mildew.
- ▶ Adds insulation - for heat & sound.
- ▶ Can be applied to virtually all surfaces - including tiles.
- ▶ No grouting.
- ▶ Quick, easy and clean to install.
- ▶ Easy to clean and maintain.
- ▶ Range of versatile profile fittings.
- ▶ Can be fitted onto existing ceilings - no more painting!

## LIMITATIONS OF USE

- ▶ Possible adverse reaction to solvent based adhesives - use recommended adhesives only.
- ▶ Application of adhesives, including adhesive tapes, to printed surface is not recommended.
- ▶ Exposure to extreme heat source may result in distortion of product.
- ▶ Despite a high level of surface protection, prolonged exposure to U.V. may result in colour variation.
- ▶ Infills are for Elegance and Impressions Ranges only.

## TECHNICAL SPECIFICATION

- ▶ High impact modified u-PVC.
- ▶ 10mm twin-wall construction.
- ▶ Fire Resistant to Class 1 BS476 PART 7.
- ▶ Interlocking, 'tongue and groove' design with a flush flat finish.
- ▶ Range of edging and corner profiles.
- ▶ Optional finish products - borders, coving, skirting, dado, inserts.

## CLEANING & MAINTENANCE

- ▶ Ensure traces of adhesive and silicone sealant are removed from surface of cladding before they set.
- ▶ Use a mild soap solution and soft damp cloth to clean.
- ▶ Avoid use of abrasive or harsh chemical cleaning agents.
- ▶ Please request samples as colours may vary during printing of brochures.

Enviroclad decorative wall and ceiling cladding offers beauty and convenience for bathrooms, showers, kitchens and many other areas of the home. It is an attractive, hygienic and versatile alternative to traditional tiled finishes.

Quick and simple to install and virtually maintenance-free, the durable, wipe-clean surface is available in a wide range of traditional and contemporary designs and colours to suit all applications.

Minimal preparation is required prior to installation and no special skills or tools are needed (ask for the Installation Details sheet). Enviroclad decorative cladding can be installed over existing tiled surfaces and directly onto blockwork, saving time and money on surface preparation.

The twin-wall PVC construction improves insulation, reduces condensation and inhibits the growth of mould and mildew, making it highly suitable for wet areas, such as leisure centres, swimming pools, showers and bathrooms.
